#### Junior Frontend Developer

Worked as a frontend developer on two major projects with a strong focus on building real-world, scalable, and responsive web applications using Angular and modern frontend tools.

Key responsibilities & projects:

Museum Website Project – Built a visually engaging and responsive website using Angular 18, Fuse Angular Starter, RxJS, and LESS. Customized layouts, themes, and components from Fuse to create a clean UI. Implemented modular routing, reusable components, and optimized loading strategies to improve user experience.

E-commerce Website Project – Developed a fully functional online store using Angular 19, NgRx for state management, NG-ZORRO for UI components, and RxJS for asynchronous data flow. Implemented dynamic product filtering, and responsive design principles for mobile-first compatibility.

Followed best practices in scalable architecture and clean code. Worked collaboratively in an Agile team, participated in code reviews, and contributed to UI/UX improvements across both projects.

October 2023 —  
November 2024  
1 year 2 months

### Worked as an IELTS instructor at King's Academy

#### English teacher

Worked with more than 50 students, helped them to improve their English skills and get their desired certificates.

Further information

About me

I'm a passionate and results-driven Frontend Developer with a strong foundation in Angular, RxJS, JavaScript, and modern web technologies. I love creating clean, user-focused interfaces and building real-world solutions—from e-commerce features like dynamic shopping carts to AI-powered Telegram bots.

I bring not just technical skills, but also a problem-solving mindset and a continuous learning attitude. Currently, I'm enhancing my expertise in Angular 19 and RxJS, and I've recently developed a smart automation tool for content scheduling using OpenAI's API. I enjoy collaborating in teams, writing clean, reusable code, and turning complex ideas into fast, responsive, and beautiful web apps.

I'm excited to bring energy, creativity, and solid frontend skills to a team where I can contribute and grow.
